Information Resources Management (IRM) | Business Analysis and Quality Assurance | IT Strategic Plans
PROJECT MANAGEMENT: INITIATION, DEFINITION, SCOPE, BUDGETING, PROJECT PLANNING, EXECUTION, CONTROL AND CLOSING

KEY QUALIFICATIONS

- Senior information leader who consistently demonstrates ability to meet managerial/technical automation requirements and customer needs while developing and implementing effective IRM and project-management solutions in utility, transportation, power-generation, and toxic-waste cleanup industries.
- Respected professional offering 15+ years of IRM management at both corporate and project level.
- Centralizing and managing all IRM operations at 4 permanent offices and 5 project offices.
- Managing all IRM activities on \$600 million nuclear-plant contract.
- Successfully coordinating company-wide implementation of new information systems and standards
- Conducting IRM requirements evaluation for major utility and managing resulting 15 percent reduction
- of IRM department.

WORK EXPERIENCE

Montgomery County Gas Works, Bethesda, MD

DIRECTOR OF INFORMATION MANAGEMENT AND
APPLICATION SERVICES,

May 2007 - June 2009

- Recruited to fill Director position as a result of outstanding job performance and timely delivery of initiatives while providing consulting services; implemented processes, standards and quality controls that increased organizations operational maturity; planned and managed \$2M annual budget.
- Created organizational design and built effective teams; structured and led new Information Management Division, including Business Response Team, Quality Assurance Group, and Application Services Team.
- Created tracking process to manage 24 projects delivered during last fiscal year.
- Directed selection, procurement, and implementation of significant IT initiatives.
- Integrated new Business Analyst team into organization, resulting in improved interaction between IT and its customers and alignment of IT initiatives with departmental goals.
- Implemented IT cost-allocation model resulting in equitable redistribution of IT costs back through corporation and clearer understanding of departmental technology expenses.
